Number 001/2022

Dear Deans, Associate Deans, Directors and Head of Departments

Pursuant to the short, medium and long-term strategic plan of the university to be a leading higher education institution, address the UN's Sustainable Development Goals, and to be a (1) Niche University, (2) Sustainability University, (3) Good Governance and Morality University, (4) Wellness University, and (5) Green University, all subjects taught in the university must include either the concepts, principles or the practices of sustainability to enhance know-how, level of awareness, and practical applications of sustainability principles in daily living.

All faculties are then enjoined to include in their proposed activities (curricular, co-curricular or extra-curricular) the SDG(s) they are addressing for consideration.

This memorandum is effective on August 8, 2022 of academic year 2022 until it is repelled or reviewed.

Sincerely yours,

**Dr. Jonathan Rante Carreon**  
**Vice-President for Academic Affairs**
